Report on One-Day Capacity Building Programme on “NAAC, NIRF & QS Insights”

Date: 1st March, 2025.

Venue: Acharya Chankaya Seminar Hall, 1st Floor, GTU - School of Management Studies, Academic Block 4, GTU

Gujarat Technological University Internal Quality Assurance Cell has organised One-day Capacity Building Programme on “NAAC, NIRF & QS Insights” on 1st March 2025. The participants of the programme was all administrative Section heads of GTU and teaching staff members of GTU Schools and GPERI. Around 150 participants were registered and participated in this event.

The event began with an opening address of Head-IQAC, Dr. Pankajray Patel. The session outlined the importance of understanding national and global ranking systems such as NAAC, NIRF, and QS in driving academic and administrative improvements within the institution. In this session an overview of last seven years’ university data submitted to NAAC was graphically presented in front of the participates and provided them a view of in which criterion the university is becoming more strong and accelerate its ranking by fostering some more extra efforts. also provided them a target for upcoming AQAR 2024-25.

After this expert session was organised to discuss National Institutional Ranking Framework (NIRF) a ranking framework

The second session discussed the National Institutional Ranking Framework (NIRF) a ranking framework developed by the Ministry of Education, Government of India and QS World University Rankings and how it is differing from NIRF and NAAC was delivered by the Dr. Sanjeet Singh, Pro Vice-Chancellor, Marwadi University, Rajkot. Sir has more focusing on the Perception parameter which is one of the key components of the NIRF, which is used to rank higher educational institutions in India. This parameter specifically evaluates how institutions are viewed by the academic community and employers. It assesses the reputation of an institution, which plays a critical role in determining its rank. Sir has highlighted that strong research outputs and collaborations are crucial in securing higher rankings specially in NIRF and global ranking systems like QS.

The last session on Implementation of Outcome Based Education through Technology was delivered by Eddie Malecki Co-Founder, ASSESSFY, Transforming Assessments into Powerful Learning Tools. The session included a demonstration of ASSESSFY's platform, which supports the implementation of OBE by enabling institutions to set clear learning outcomes, assess student performance, and track progress over time. He encouraged participants to explore and adopt tools like ASSESSFY to simplify the OBE implementation process and to improve the teaching and learning experience.

The Capacity Building Programme was a success, with 150 participants engaging in meaningful discussions and gaining valuable insights into how to enhance the quality and global visibility of Gujarat Technological University. The event helped foster a deeper understanding of the intricacies of ranking frameworks and accreditation processes, which are vital for the growth and development of educational institutions.
